EJONS International Journal on Mathematic, Engineering & Natural Sciences is a referred scientific journal published three times a year. Our main goal is to facilitate communication and open discussion between scholars, researchers and practitioners interested in technical sciences. To provide the academic community immediate access to the latest results of scientific research, we publish open access academic journals and conference proceedings. The articles are thus freely accessible to wide academic audience through web search engines like Google Scholar and other that index full texts of scholarly literature. We accept just original distinguished papers which contribute on science.
